

# Roy Herron For US

## Understanding the Issues

### **Recruit Jobs & Grow the Economy**

*Roy's top three priorities for Tennessee are jobs, jobs and jobs. Roy has a proven record of promoting a strong economy and creating job opportunities in the Volunteer State — like the West Tennessee Megasite, Hemlock Semiconductor Plant, and Northwest Tennessee Port Authority and Industrial Park.*

### **Renegotiate Bad Trade Deals To Save Jobs**

*On his first day in Washington, Roy will file a bill to force the government to renegotiate NAFTA. This and other irresponsible trade agreements have sent more than a million American jobs overseas, hurting working families and devastating our communities*

### **Put Main Street over Wall Street**

*The recession is hurting everyone. Roy will fight bailouts for Wall Street fat cats who wrecked our economy, and he will work for the middle class and small businesses, the heart of REAL growth.*
